Dear Property Owner/Resident,

Beginning mid September, the City of Rehoboth Beach will replace the water main and water service lines on Sussex Street from 3rd Street to 4th Street. Between 4th and 5th Streets all water service lines will be replaced. The city's contractor will also resurface Sussex Street between 3rd and 5th Streets. This work is part of the city's annual Capital Improvement Plan and is part of the fiscal year 2027 budget.

Again, this work is scheduled to begin in the fall as weather and the contractor's schedule permits; more precise dates will be communicated via a new notification system to receive important updates via email and/or text. If you wish to receive text updates solely on this project, text "SussexStProject" to 38276. You can also sign up for alerts on this project and others that may affect you at <https://portal.civicplus.com/DE-RehobothBeach/notifications?tab=alerts> and toggling on the group(s) you want to receive updates about. Signing up via the link requires an account to be created. On street parking will not be available at certain times and phases. The areas will be marked.

If you are in need of any concrete repairs to your driveway apron, you can take advantage of the city's contract rate and have our contractor do the work at the contract unit price. The city will provide you with a detailed cost estimate prior to the work being done, and you would reimburse the city. No permits would be required. This could be considerable savings instead of contracting the work yourself. To schedule an estimate for this, please contact the Public Works Department at 302-227-6181, ext. 619.

Thank you in advance for your patience and assistance in coordinating any desired utility work. If you have any questions or comments, please contact the Public Works Department at 302-227-6181 x 619.

Sincerely,

Henry Matlosz
